Date approved by Board of Directors: January 18, 2018

Secretary: Margaret Moore

Purpose:

Outdoor play is an integral part of the daily schedule and plays an important role in the development of children's overall well-being. In order for children to thrive in outdoor play, it is crucial that there be sufficient toys and equipment for children to engage in active play and that the educators engage as active participants in the play.

The How Does Learning Happen? Ontario Pedagogy for the Early Years document describes how children thrive in programs where they can engage in vigorous physical play in natural outdoor space and playgrounds that present manageable levels of challenge. In addition to providing physical benefits, active outdoor play strengthens functioning in cognitive areas such as perception, attention, creative problem solving and complex thinking

While these environments need to be safe, it is also important for them to provide children with interesting opportunities for a reasonable degree of risk-taking

The purpose of this policy is to set out the responsibilities of the Orde Day Care staff, students and volunteers in ensuring that the outdoor play provided is safe and well-supervised environment for children and meet Canadian Standards Association (CSA) standards. Staff is required to plan daily activities that promote active play while maintaining ratios and optimum positions of supervision at all times.

All staff, volunteers and placement students are required to review the playground policy when commencing employment, training or volunteering and annually thereafter. A written record of the review will be signed annually by the individual and the Supervisor to ensure compliance. Staff must stay informed of all current playground requirements and restrictions.

Any new and current equipment or renovations, repairs or replacements will meet CSA Standards. All playground inspections, daily, monthly and annually are performed while ensuring the Canadian Standard Association standard is met. A yearly inspection is performed by a Certified Playground Safety Inspector annually and a written report is kept on file.

Policy

- Orde Day Care will ensure that there are enough play materials available that are appropriate for the children's age and learning and developmental needs during outdoor play.
- The maximum capacity of the playground will not be exceeded at any time.

ORDE DAY CARE'S STAFF POLICY AND PROCEDURE BINDER

Procedure: Playground Inspections/Checks:

To further ensure safety we have developed a Playground Safety Binder that includes:

1. **Accident Reports** (program staff) to track all injuries on playgrounds.
2. **Playground Injury Log** (Site Supervisor) to highlight problem areas.
3. **Daily Inspection Checklist** (program staff/caretaking staff) done prior to children entering playground which ensures the following areas are visibly checked before children enter the playground:
 1. Outdoor play space
 2. Fixed play structures
 3. Surfacing checks
 - a. children will not use the playground, unless the playground checklist has been completed
 - b. staff must review the daily playground inspection prior to going outside to ensure that it has been inspected – this must be done both in the am and pm dependent on the program
 - c. on days that the playground is not used due to inclement weather or a field trip the daily playground checklist must indicate the reason why the playground was not used or inspected
 - d. any identified hazards will be verbally communicated to the Supervisor and noted on the daily check
 - e. The Supervisor will review the daily playground checklist to ensure compliance and identify any ongoing issues
 - f. Supervisors will inform caretaking staff that ropes or plastic tape cannot be used to cordon off a defective area
 - g. Supervisor will file all playground inspections in the Playground Check Binder for the current year
4. **Monthly Maintenance Inspection (Supervisor)** to record hazards or defects that need immediate attention or require a plan of action within a specific timeframe.
 - Supervisor will maintain an ongoing Repair Log
 - Supervisors will log any repairs or maintenance issues in the Playground repair log from the daily, monthly and annual inspections on the Playground repair log,
 - Playground repairs will be emailed to the caretaking staff of the TDSB and the school principal (Orde Site) or the playground manufacturer.
 - Supervisors will note the date the TDSB or the manufacturer of the structure was emailed on the log
 - Supervisor will review the log on a monthly basis to ensure repairs or concerns have been address.
 - If repairs are still outstanding, Supervisors will send a secondary email to the caretaking and Principal if applicable and note the second date on the repair log.

ORDE DAY CARE'S STAFF POLICY AND PROCEDURE BINDER

- If repairs are still outstanding after a second notice, the Supervisor will inform outside inspectors of the needed repair ie Toronto Public Health inspector, Ministry of Education, Program advisor and City of Toronto, Children Services consultant
 - Once a repair has been completed Supervisors will enter the date of completion on the playground repair log
5. **And a 3rd party inspection** which is conducted annually for the fixed structures and surface check of the playground
- The third-party inspector must:
- a. Declare non conflict of interest including declaration of non- affiliation with playground equipment and protective surface manufacturers, suppliers and/or other contractors involved in retrofit, upgrade or repair of the playground or the protective surfaces:
 - b. Has proof of current Professional Errors and Omissions insurance coverage and
 - c. Has proof of playground inspection certification

Repair and Maintenance:

Maintenance of playground repair log for any problems or unresolved issues on the playground will includes;

- a. The date the issue was identified
- b. Documentation of what steps and efforts have been taken to address any identified items which cannot be repaired immediately due to circumstances beyond the daycare's control
- c. All request for repairs through the TDSB will be emailed to the head caretaker and principal of the school, and/or playground manufacturer to ensure documentation of the requested repair
- d. Supervisors will note date of email on the repair log
- e. Supervisors will review the log on a monthly basis and provide written updates on log
- f. If repair is outstanding for more than one-month Supervisors will send a secondary email to the caretaking and Principal if applicable and note the second date on the repair log.
- g. If repairs are still outstanding after a second notice, the Supervisor will inform outside inspectors of the needed repair ie Toronto Public Health inspector, Ministry of Education, Program advisor and City of Toronto, Children Services consultant
- h. Once the repair has been completed the date of completion will be noted in the log
- i. If the repairs cannot be completed immediately, the area or space requiring repairs will be sectioned off to prevent children from using that are in order to protect their safety and reduce risk of injury, Children will be supervisor at all times during outdoor play to ensure that they do not approach or use spaces that are sectioned off pending repairs. Tape or string should not be used to cordon off areas
- j. Any repairs requiring alterations or renovations to the playground premise will not begin until site or playground plans are approved by the Ministry of Education Director

Compliance with CSA Standards:

- Any outdoor play space, fixed play structure or surfacing under those structures that is constructed or renovated will meet the requirements set out in the Canadian

ORDE DAY CARE'S STAFF POLICY AND PROCEDURE BINDER

Standards Association (CSA) standard CAN/CSA-Z614-14 "Children's Playspace and Equipment"

- Written confirmation of compliance with the CSA standard will be obtained from a "Certified Playground Inspector", upon completion of any repairs or renovations which have resulted in a non-compliance, with the CSA standard as outlined in a playground inspection

Playground experiences are an integral part of our program and planning. A playground safety checklist must be completed daily by a designated staff and outdoor program plans must be posted weekly. Programs are designed as an extension of our program, with opportunities for learning and enhancement of many skills identified in the ELECT document.

Playground Procedures:

When we are outdoors, safety is our top priority. Safety of the children includes monitoring for proper use of equipment. Staff are encouraged and expected to play with the children and/or lead them in games and activities while ensuring that all areas are properly supervised.

Glossary

Canadian Standards Association (CSA): a non-profit, voluntary association engaged in standards development and certification activities. The current standard in Ontario for licensed child care centre playgrounds is CAN/CSA Z614-14 - Children's Playspaces and Equipment. This standard specifies design and maintenance criteria to reduce the risk of injury.

Certified Playground Inspector: An individual who holds a current certification with the [Canadian Playground Safety Institute](#).

Fixed play structure: a structure anchored to the ground that is designed for children to climb on (e.g., a climber).

Licensee: The individual or corporation named on the licence issued by the Ministry of Education responsible for the operation and management of the child care centre.

Staff (Employee): Individual employed by the licensee (e.g., program room staff).

Policy and Procedure Review:

This policy and procedure will be reviewed and signed off by all employees before commencing employment, annually, and at any time changes are made.
